

# DHL

## DHL logo

### Logo versions

When choosing a logo version, please make sure to choose the one that is **most appropriate** for your **specific use case**. In general, the colored logo versions should always be your first choice.

**Red DHL logo:** For flexible use on a Postyellow background.

**Logo on brand field:** Allows for more flexible application across various backgrounds.

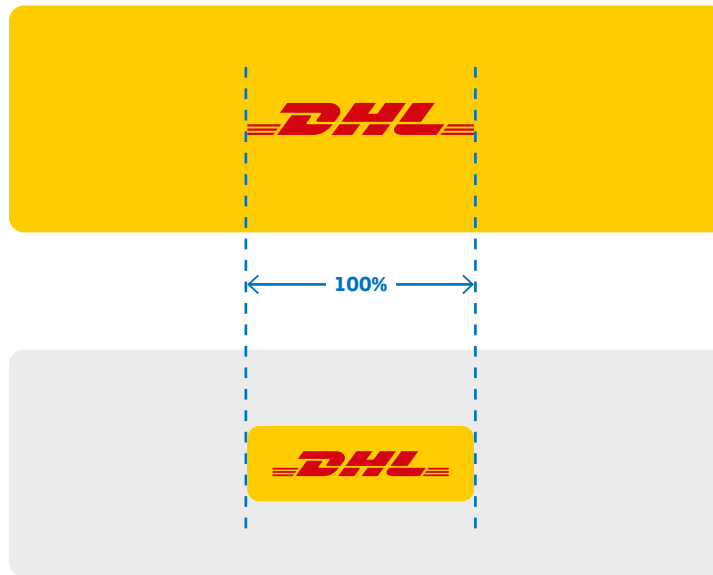

**White logo:** May only be used on dark areas of an image.

**Black logo:** For use in contexts where color printing isn't possible.

### Further information

For more information on specific use cases, placement requirements and sizes for print and digital, please check out the [specific guide](#) in Brand Hub.

**Minimum size:** Our logo remains strong and legible even at smaller sizes, but don't reduce it below a width of 84px or 20mm.
